Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Receipt and entry of Applicants' Preliminary Amendment filed on Aug. 30, 2006 is acknowledged.

Claims 11 and 16 have been amended. Claims 19 and 20 have been added. Accordingly, claims 1-20 are pending in this application.

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Drawings

2. The drawings were received on Aug. 30, 2006. These drawings are acceptable.

Claim Objections

3. Claims 1-10, 15 are objected to because of the following informalities:

- Regarding claims 1, 4-10 and 15: the limitation "said solenoid valves" is confusing, because it is unclear whether applicants are claiming "on-off solenoid valves" or "switching solenoid valve". This can be corrected as -- said on-off solenoid valves and switching solenoid valve --.

- Regarding claim 2: page 3, line 3, "activhamber" should be changed to -- activechamber --.

- Regarding claim 3: page 4, line 7, -- unit -- should be inserted after "said flow switch".

- Regarding claims 2 and 3: the term "can be identified" render the claim indefinite since the resulting claim does not clearly set forth the metes and bounds of the patent protection desired. This can be corrected as -- is identified--.

Appropriate correction is required.

Prior Art

4. The IDS (PTO-1449) filed on Aug. 30, 2006 has been considered. An initialized copy is attached hereto.
5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure and consists of five patents: Fujita et al. (Publication Number JP 60-164693), Kobashi et al. (Publication Number JP 60-216092), Yanagisawa et al. (Publication Number JP 63-106391), Yamazaki et al. (Publication Number JP 10-089271), and Yamazaki et al. (Publication Number JP 11-082354), each further discloses a state of the art.

Conclusion

6. This application is in condition for allowance except for the following formal matters as set forth above.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

7. Applicant is duly reminded that a complete response must satisfy the requirements of 37 C.F.R. 1.111, including: "The reply must present arguments pointing out the specific distinctions believed to render the claims, including any newly presented claims, patentable over any applied references. A general allegation that the claims "define a patentable invention" without specifically pointing out how the language of the claims patentably distinguishes them from the references does not comply with the requirements of this section. Moreover, "The prompt

development of a clear Issue requires that the replies of the applicant meet the objections to and rejections of the claims.” Applicant should also specifically point out the support for any amendments made to the disclosure. See MPEP §2163.06 II(A), MPEP §2163.06 and MPEP §714.02. The "disclosure" includes the claims, the specification and the drawings.
